The equipment specified shall be the manufacturer's current production model and shall be bid with all of the standard equipment as specified in the manufacturer's printed literature. In addition the bid shall include the attached City specifications.

- A. **Instructions to Bidders:** The complete bid package must be returned intact. Missing pages or incomplete information may be construed by the City to constitute a non-responsive bid. Non-responsive bids may be rejected.

A place has been provided for each section for which the bidder must enter either "Yes", "No" or "Alternate". Specific sections include the make, model, and other descriptive information needed to clearly describe any alternative offered. If additional spaces are needed, securely attach additional page(s) "Statement of Exception" sheet. Additional pages must be numbered clearly and consecutively, include the section number and signed by a responsible company official on the last page submitted.

- B. **Bid Evaluation:** Units offered will be subject to analysis and evaluation by the Public Works Department for quality, construction, material, and compliance with City's specifications. In evaluating the bids, the City intends to make such comparisons, as it may deem appropriate in order to select the bid, which will result in obtaining the unit that best meets its needs.

The bid evaluation will include, but not necessarily limited to, the following factors:

1. Purchase price;
 2. Delivery time (in calendar days);
 3. Warranty.
- C. **Bid Response:** The bidder shall submit to the City, a complete bid response package detailing the equipment proposed to meet these specifications. It shall also include warranty, product support information, and delivery time in calendar days.

Note: Bids submitted without a clear statement of delivery time may be rejected.
