Subject: email addendum to my phone message for Oral Communications

Dear Jennifer,
Please circulate to all Council Members:

- A. Mayor and council members: Last year, I sent you the 2009 Slate Magazine article titled: "How do pandemics end?" Four scientist authors wrote, "They end when the virus finds no new hosts".
- B. I also sent you mask information:
They're largely ineffective:
They collect virus, bacteria and fungus particles: and
They reduce Oxygen intake to below OSHA safety levels.
- C. If there were no CA lockdowns for: SARS1, H1N1, MERS, Zika, Hiv/AIDS or Ebola viruses, why are there STILL lockdowns for the Wuhan-CCP-Covid virus?
- D. The economic damage from these lockdowns is in the \$ trillions:
The stock market plummeted from record highs;
CA small businesses died by the 1000s;
"Non-essential" CA businesses are STILL dying;
The unemployment rate jumped from historic lows; and
The national debt has jumped, so far, by 3 trillions.
- E. I sent you information on the latest virus mutant, D614G:
It spreads more easily than the Covid BUT
It is more vulnerable to our own antibodies or a vaccine.
- F. I stand here as that story-book child tugging on his Daddy's sleeve, saying, "Look, the Governor has no clothes on."
And I ask what have YOU done to push back on this Governor to cease his lockdowns and alleviate our Merced suffering?

Sincerely,
Rick Wendling
