Subject : Agenda item number E.3

Members

The Zoning Ordinance Amendment #20-01 , I would like part of this item remove for further review or discussion ,which would be the " Allowing food trucks in the City Center area of the Regional / Central Commercial Zone,

The reason is it robs the existing Brick and Mortar stores that have a lot of overhead and, And most food trucks not all work on a cash only system,, Some food trucks just open up where ever they want ,not following any codes with regards to Health Department rules or Permits, Because the Merced City Code Enforcement does not work weekend s and are overwhelmed with other issues, Just like the Phone tent vendors in parking lots not collecting sales tax all from out of town.

I would like to see a Agenda Item reviewing food trucks vendors most of them set up pop up tents and put chairs out like a regular Restaurant

Sincerely

Rod Brawley
