Hello,

I would like to voice my support for changing the level of review for Personal Services. Personal Services is a large umbrella with many uses. Many of these professionals need a small space to do business and a site plan review is excessive and time consuming. This pandemic has presented many obstacles for those in the Personal Service industry, and we should be making this process as easy as possible for them. Opening the approval to other commercial zones would be a great benefit to landlords and prospective tenants.
