Subject: Council comment, item I.4

Item I.4 ADUs

My name is Diana Odom Gunn and I am representing the Merced Downtown Neighborhood Association (DNA).

We support the expansion of ADUs in our neighborhoods. We recognize our affordable housing crisis and want to participate in solutions. However, we also recognize that increased population density is associated with increased problems for our neighborhoods. We hope that the City will dedicate resources to manage these problems. We will need increases in code enforcement, traffic management, and attention to public safety in general. We anticipate that our current parking deficit may become a critical concern. We hope that the City might consider permitted parking for residents of downtown neighborhoods, along 21st Street in particular.

Thank you for your consideration.

Diana Odom Gunn
