Subject: Merced Redistricting Community of interest
Date: Wednesday, January 26, 2022 11:32:58 PM

Good Morning I am a resident of Merced my name is Tina Ramos. I have lived in this city for 7 years and I live where the main streets of my community is R street and S street. my neighborhood is close to a elementary school. Most people in my neighborhood choice the area because it is close to Fremont elementary school that was previously a charter school that has great education programs that help the our future residents (the kids)improve our community grow In a positive way. Now if we don't choice the right district bored map to suit members of all class such as low income Hispanics, Koran families with young children, young adults, and single. The current assigned map that was created will divide our community and may cause our city to lose population due to these changes. Fore example for some school areas parents will have no choice but to move out of city limits and closer to the areas near their children schools. Also some other issues such as homeless, homes become overcrowded and cause families to double up in my opinion because most residents in my area our renters not home owners of their homes it may very well effect some of u. I support the city of Merced, Forward Together map# 106 because I believe we should have a community map that would suit all our current community residents both the folks that are here now and our future ones. Thank you very much for your time. And consideration
