Updated/error on previous

The community of Merced is asking for \$20 million out of the general fund to go towards an affordable housing trust fund that would include programs for low income folks, farmworkers, and young people. If approved, the state would match this dollar by dollar, totalling \$25 million. This is "free" money that we can get that would dramatically and positively transform Merced.

The mayor asked what could we cut? 70% of Merced's General Fund goes towards police. Yet, Merced has more empty homes than people that are houseless, all while rents are increasing w/o keeping up with wages. The safest communities do not have the most cops, they have the most resources.
