

Application for Alternate Sewer Service Charge

** Requires a \$150 deposit for initial water audit and administrative costs and a \$50 annual re-evaluation charge for potential renewal.

This special sewer rate determination may only be used when more than 10% of water consumption is used for landscape irrigation and it is not feasible to use a separate water meter to measure the irrigation usage.

Must have at least 12 months of water usage history for data analysis. The water audit must be conducted by June 1st for implementation on July 1st.

The commercial customer must be in compliance with MMC 15.42 – Water Shortage Regulations to qualify for an alternate rate based on winter water usage. The water shortage regulations (MMC 15.42) include but are not limited to:

- Odd numbered addresses may only water on Wednesday and Sunday. They may not water during the heat of the day, specifically between 9 a.m. – 9 p.m.
• Even numbered addresses may only water on Tuesday and Saturday. They may not water during the heat of the day, specifically between 9 a.m. – 9 p.m.
• Irrigation leaks and other water leaks must be fixed immediately
• Allowing broken or defective plumbing, or sprinklers, watering or irrigation systems which permit the escape or leakage of water
• The indiscriminate running of water or washing with water not otherwise prohibited which is without reasonable purpose.
