

# CITY OF MERCED

**MERCED**

## RESPONSE TO REQUEST FOR INFORMATION (RFI No. 2)

Project: Orchard Lane Sewer Replacement, Project No. 119025

Date: March 7, 2023

Question: - Will contractors be required to drain, and keep clear the Cal Trans Sump if it is full of water? At the job walk, the sump was full of storm water. The bore pit is designed to be in the bottom of the sump. Please clarify who would cover the water mitigation. They City or the contractor?

Answer: The City will cover the water mitigation in the form of a Change Order. It is not expected to be flooded at the time of construction.

A handwritten signature in blue ink, appearing to read "Michael R. Beltran II".
