

# MERCED IRRIGATION DISTRICT

June 5, 2024

Kayla Abarca, Administrative Assistant II  
City of Merced, Planning Division  
678 West 18th Street  
Merced, CA 95340

Re: **VTSM #1331**

Ms. Abarca,

The Merced Irrigation District (MID) has reviewed the above referenced Site Plan and offers the following comments:

1. MID operates and maintains the Booster 38 Lateral Pipeline lying outside of the proposed development along the west side of Massasso Street.
2. If storm water runoff is to be discharged from the site into any MID facility through a new or existing drainage system the property owner would be required to enter into a subdivision drainage agreement with the MID, paying all applicable fees.

Thank you for the opportunity to comment on the above referenced project. If you have any questions, please contact me at [REDACTED].

Sincerely,

*Mike Morris*

Mike Morris PLS
