RE: PROPERTY LOCATED AT 636 W. MAIN STREET, MERCED, CA/A.P.N. 031-134-003

This Legal Notice and Order to Repair or Abate ("N&O") is issued pursuant to the California Health and Safety Code ("H&S") section 17980.6. The structure identified herein and located on the real property herein described on Exhibit A is determined to be a dangerous building pursuant to the 1997 Uniform Code for the Abatement of Dangerous Buildings (UCADB) and the Merced Municipal Code ("MMC"). The following sections of the 1997 UCADB and MMC are applicable to the property. The following unlawful conditions have been identified at the Nuisance property on or around July 12, 2018 (this may not be an exhaustive list of all violations and the City retains the right to identify further violations as they are discovered):

UCADB Section 302.4- Whenever any portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the Building Code for new buildings of similar structure, purpose or location. (See also MMC section 8.40.070 B, F, V.)

UCADB Section 302.5-Whenever any portion or member or appurtenance thereof is likely to fail, or to become detached or dislodged, or to collapse and thereby injure persons or damage property. (See also MMC section 8.40.070 B, F, V.)

UCADB Section 302.13 - Whenever any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by building regulations of this jurisdiction, as specified in the Building or Housing Code, or of any law or ordinance of this state or jurisdiction relating to the condition, location or structure of buildings. (See also MMC section 8.40.070 B, F, V.)

UCADB Section 302.17 - Whenever any building or structure is in such a condition as to constitute a public nuisance known to the common law or in equity jurisprudence. (See also MMC section 8.40.070 B, F, V.)

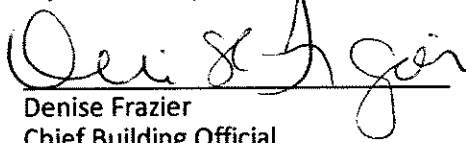

Pursuant to the UCADB and the MMC, the building on the Nuisance Property is dangerously substandard and constitutes a public nuisance. Therefore, the Chief Building Official of the City of Merced has determined that the structure identified herein must be repaired or demolished. Therefore, pursuant to H&S, § 17980.6, you are hereby ordered to repair or abate all code violations on the Nuisance Property, including, but not limited to, all unlawful conditions identified herein. During this time, the structure shall remain vacant and secured. Additionally, the structure shall be assessed by a structural engineer for safety.

Work to abate these unlawful conditions must begin by August 11, 2018 ("Compliance Initiation Deadline"). For repair, plans shall be submitted and approved, with work commencing no later than the Compliance Initiation Deadline. **All repairs must be completed by September 10, 2018 ("Compliance Deadline").** If demolition of the structure is going to occur in lieu of repair, the required demolition and air quality permits must be secured and demolition shall be completed by the Compliance Initiation Deadline.

The legal consequences for failure to initiate rehabilitation and correct the unlawful conditions identified above by the Compliance Deadlines may include administrative fines, criminal prosecution, and civil remedies such as injunctions, penalties, and an application for the appointment of a receiver over the Nuisance Property. Furthermore, you will be held liable for all costs, fees, and expenses, including all inspection costs, investigation costs, enforcement costs, abatement costs, court costs, litigation expenses, prosecution expenses, attorneys' fees, and administrative expenses incurred by the City in inspecting, identifying, investigating, enforcing, prosecuting, and abating all unlawful conditions on the Nuisance Property.

Per section 401.2:5 of the 1997 UCADB, be advised (i) that any person having any record title or legal interest in the building may appeal from the notice and order or any action of the building official to the board of appeals, provided the appeal is made in writing as provided in the 1997 Uniform Code for the Abatement of Dangerous Buildings and filed with the building official within 30 days from the **date of service** of such notice and order; and (ii) that failure to appeal will constitute a waiver of all right to an administrative hearing and determination of the matter.

If you have any questions regarding this Notice & Order, you may contact the undersigned.
