

THE CITY OF MERCED'S FREDDY FIN NEEDS YOUR HELP KEEPING TRASH OUT OF THE STORM DRAIN.

Learn what makes up a storm drain system and help the City of Merced keep our drains pollution free by putting trash and pet waste in the garbage.

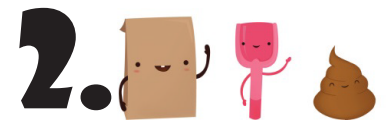

Remember: our fish don't complain when it's **ONLY RAIN DOWN THE DRAIN!**

1. START HERE.

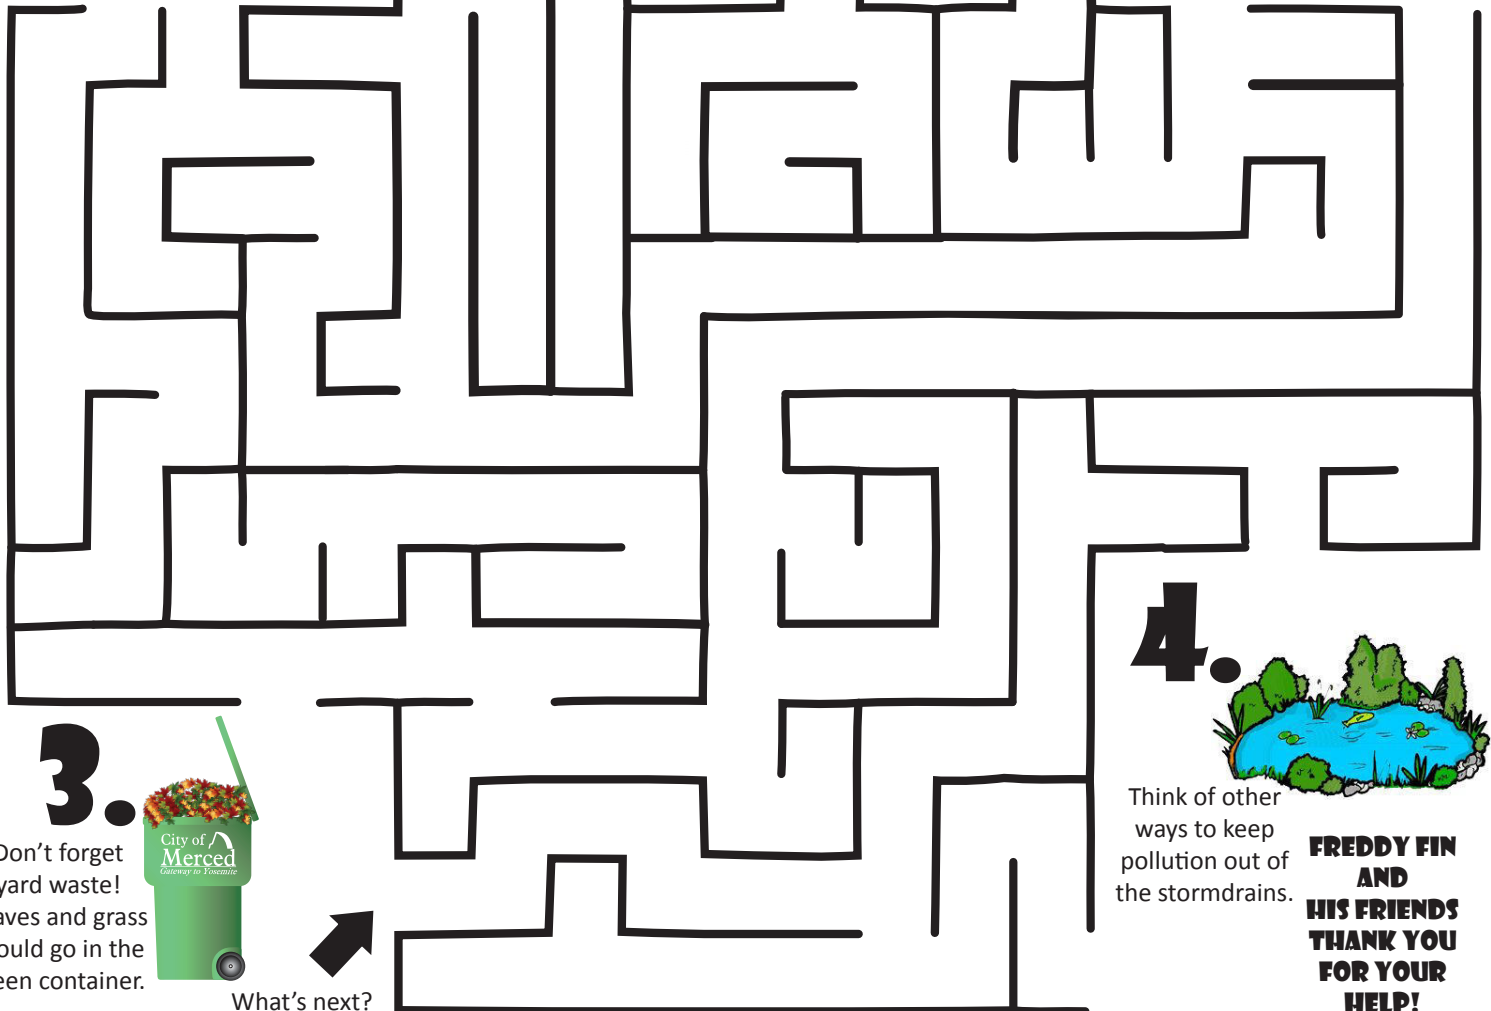

Keep motor oil, trash, soapy water, paint, and dirt out of the stormdrain

2.

Pet waste should be picked up and disposed of in the trash, too.

What's next?

3.

Don't forget yard waste! Leaves and grass should go in the green container.

What's next?

4.

Think of other ways to keep pollution out of the stormdrains.

FREDDY FIN AND HIS FRIENDS THANK YOU FOR YOUR HELP!
