M/S HARRIS-PADILLA, and carried by the following vote, to deny Conditional Use Permit #1231, subject to Finding M as follows (RESOLUTION #4026):

“M. After conducting a public hearing, considering all the public testimony, and the information in Staff Report #19-22, the Planning Commission voted to deny Conditional Use Permit #1231 for the following reasons: 1) traffic in the vicinity of the project is already problematic with high traffic volumes, constrained rights-of-way that make turning movements difficult, and congestion at various times of the day, so the traffic study from the previous commercial project approved on the site in 2015 should be updated to address the traffic impacts and possible mitigation for the current mixed-use project; 2) the sewer line in Yosemite Avenue is constricted and would require an alternative means of discharging wastewater from the site during peak flow times through the use of an on-site wastewater storage system, which could cause impacts on the existing wastewater infrastructure in the area; 3) the people/acre density and parking calculations that show compliance with City plans and codes rely on the requirement that the efficiency units be limited to one occupant, raising fair housing concerns in regards to married people and others, which might make this requirement unenforceable.”

Planning Manager ESPINOSA explained the appeals process to the applicant.

Resolution #4025

WHEREAS, the Merced City Planning Commission at its regular meeting of August 21, 2019, held a public hearing and considered **General Plan Amendment #19-02 and Zone Change #426**, initiated by Merced Holdings, LP, property owner. The General Plan Amendment and Zone Change application is a request to change the General Plan designation from Low Density Residential (LD) to Neighborhood Commercial (CN) and change the Zoning designation from R-1-6 to Neighborhood Commercial (C-N) for approximately 22,670 square feet of land located approximately 360 feet south of Yosemite Avenue, on the east side of McKee Road; also known as Assessor's Parcel Number 008-310-038; and,

WHEREAS, the Merced City Planning Commission concurs with Finding K of Staff Report #19-22; and, the following additional finding:

L. To promote orderly development in a community, a single parcel should usually have only a single consistent General Plan land use designation and a single zoning designation. Therefore, the General Plan designation and zoning for the 22,670-square-foot strip of land along the southern property line of this parcel should be changed to match the Neighborhood Commercial (CN) land use designation and the Neighborhood Commercial (C-N) zoning designation as the rest of the parcel.

NOW THEREFORE, after reviewing the City's Initial Study and Draft Environmental Determination, and fully discussing all the issues, the Merced City Planning Commission does resolve to hereby recommend to City Council adoption of a Mitigated Negative Declaration regarding Environmental Review #19-18, and approval of General Plan Amendment #19-02 and Zone Change #426, subject to the Conditions set forth in Exhibit A attached hereto and incorporated herein by this reference.

ENVIRONMENTAL REVIEW #19-18

Mitigation Monitoring Program

MITIGATION MONITORING CONTENTS

This mitigation monitoring program includes a brief discussion of the legal basis and purpose of the mitigation monitoring program, a key to understanding the monitoring matrix, a discussion of noncompliance complaints, and the mitigation monitoring matrix itself.

LEGAL BASIS AND PURPOSE OF THE MITIGATION MONITORING PROGRAM

Public Resource Code (PRC) 21081.6 requires public agencies to adopt mitigation monitoring or reporting programs whenever certifying an environmental impact report or mitigated negative declaration. This requirement facilitates implementation of all mitigation measures adopted through the California Environmental Quality Act (CEQA) process.

The City of Merced has adopted its own “Mitigation Monitoring and Reporting Program” (MMC 19.28). The City’s program was developed in accordance with the advisory publication, *Tracking CEQA Mitigation Measures*, from the Governor’s Office of Planning and Research.

As required by MMC 19.28.050, the following findings are made:

- 1) The requirements of the adopted mitigation monitoring program for the General Plan Amendment #19-02, Zone Change #426, and Conditional Use Permit #1231 shall run with the real property. Successive owners, heirs, and assigns of this real property are bound to comply with all of the requirements of the adopted program.
- 2) Prior to any lease, sale, transfer, or conveyance of any portion of the subject real property, the applicant shall provide a copy of the adopted program to the prospective lessee, buyer, transferee, or one to whom the conveyance is made.

MITIGATION MONITORING PROCEDURES

In most cases, mitigation measures can be monitored through the City’s construction plan approval/plan check process. When the approved project plans and specifications, with mitigation measures, are submitted to the City Development Services Department, a copy of the monitoring checklist will be attached to the submittal. The Mitigation Monitoring Checklist will be filled out upon project approval with mitigation measures required. As project plans and specifications are checked, compliance with each mitigation measure can be reviewed.

In instances where mitigation requires on-going monitoring, the Mitigation Monitoring Checklist will be used until monitoring is no longer necessary. The Development Services Department will be required to file periodic reports on how the implementation of various mitigation measures is progressing or is being maintained. Department staff may be required to conduct periodic inspections to assure compliance. In some instances, outside agencies and/or consultants may be required to conduct necessary periodic inspections as part of the mitigation monitoring program. Fees may be imposed per MMC 19.28.070 for the cost of implementing the monitoring program.

GENERAL PLAN MITIGATION MEASURES

As a second tier environmental document, Initial Study #19-18 incorporates some mitigation measures adopted as part of the *Merced Vision 2030 General Plan Program Environmental Impact Report* (SCH# 2008071069), as mitigation for potential impacts of the Project.

NONCOMPLIANCE COMPLAINTS

Any person or agency may file a complaint asserting noncompliance with the mitigation measures associated with the project. The complaint shall be directed to the Director of Development Services in written form providing specific information on the asserted violation. The Director of Development Services shall cause an investigation and determine the validity of the complaint. If noncompliance with a mitigation measure has occurred, the Director of Development Services shall cause appropriate actions to remedy any violation. The complainant shall receive written confirmation indicating the results of the investigation or the final action corresponding to the particular noncompliance issue. Merced Municipal Code (MMC) Sections 19.28.080 and 19.28.090 outline the criminal penalties and civil and administrative remedies which may be incurred in the event of noncompliance. MMC 19.28.100 spells out the appeals procedures.

MONITORING MATRIX

The following pages provide a series of tables identifying the mitigation measures proposed specifically for General Plan Amendment #19-02, Zone Change #426, and Conditional Use Permit #1231. The columns within the tables are defined as follows:

Mitigation Measure:	Describes the Mitigation Measure (referenced by number).
Timing:	Identifies at what point in time or phase of the project that the mitigation measure will be completed.
Agency/Department Consultation:	This column references any public agency or City department with which coordination is required to satisfy the identified mitigation measure.
Verification:	These columns will be initialed and dated by the individual designated to verify adherence to the project specific mitigation.

Planning Commission

Resolution #4026

WHEREAS, the Merced City Planning Commission at its regular meeting of August 21, 2019, held a public hearing and considered **Conditional Use Permit #1231**, initiated by Merced Holdings, LP, property owner. is a request to allow the construction of 428 Efficiency Dwelling Units and 18,000 square feet of retail on 5.94 acres of land with a General Plan designation of Neighborhood Commercial (CN) and Zoning designation of Neighborhood Commercial (C-N) generally located at the southeast corner of Yosemite Avenue and McKee Road; also known as Assessor's Parcel Number (APN) 008-310-038; and,

WHEREAS, the Merced City Planning Commission concurs with the following Finding:

M. After conducting a public hearing, considering all the public testimony, and the information in Staff Report #19-22, the Planning Commission voted to deny Conditional Use Permit #1231 for the following reasons: 1) traffic in the vicinity of the project is already problematic with high traffic volumes, constrained rights-of-way that make turning movements difficult, and congestion at various times of the day, so the traffic study from the previous commercial project approved on the site in 2015 should be updated to address the traffic impacts and possible mitigation for the current mixed-use project; 2) the sewer line in Yosemite Avenue is constricted and would require an alternative means of discharging wastewater from the site during peak flow times through the use of an on-site wastewater storage system, which could cause impacts on the existing wastewater infrastructure in the area; 3) the people/acre density and parking calculations that show compliance with City plans and codes rely on the requirement that the efficiency units be limited to one occupant, raising fair housing concerns in regards to married people and others, which might make this requirement unenforceable.

NOW THEREFORE, after reviewing the City's Initial Study and Draft Environmental Determination, and fully discussing all the issues, the Merced City Planning Commission does resolve to adopt a Mitigated Negative Declaration regarding Environmental Review #19-18, and to deny Conditional Use Permit #1231.

Upon motion by Commissioner HARRIS, seconded by Commissioner PADILLA, and carried by the following vote:

AYES: Commissioner Camper, Dylina, Harris, and Padilla
